KOLAR DISTRICT.

NOTIFICATION.

The 23rd December 1875.

Notice is hereby given that in accordance with the rules for the destruction of the old judicial records, all the documents, exhibits, accounts and other papers filed by parties in original and appeal suits and in execution and other miscellaneous cases and proceedings, as well as criminal cases in this Court from 1862 to 1870, and in certain civil cases received from the Courts of the late Jadid Principal Sadar Munsiff, and Superintendent of the late Bangalore Division from 1839 to 1862, will be destroyed on the 1st March 1876.

2. Parties desirous of receiving back any documents of value presented by them in connection with the cases and proceedings in question should apply to the Court before the date above specified between the hours of 11 A. M. and 4 P. M. on Court days.

B. KRISHNAIENGAR,
Dy. Commr.

HASSAN DISTRICT.

NOTIFICATION.

The 4th December 1875.

Notice is hereby given that the undermentioned land in the village of Heggudde, attached to the Kasba Hobli, Manvarabad Taluk, will be put up to public auction on the spot, on the 20th January 1876, from 11 A. M. to 5 P. M. The highest bidder to be the purchaser, and the terms of sale will be explained on the spot by the officer conducting the sale.

Sealed applications for this land will also be received at this office until the 15th January 1876; but the parties sending such applications are requested to be present on the spot on the day of sale; failing which the undersigned reserves to himself the right of either accepting or rejecting such applications.

Name of land.	Extent. A.	R.	P.	Yds.
Dabbe Uduve	7	2	3	9¼

Boundaries.

1*st Piece.*—*East.*—By the road leading from Marshalli to Yatekere; a jack tree; a hittal; a rocky ground called Marti; a grazing land called "Kuravu;" and a high ground called "Malé Dinne."

West.—By a high ground called "Dabbe" Kuravu Uduve "Vattu Dinne." A swampy ground called "Dasanamane hanal."

North.—By a hedge called "Beli;" a line called Dyavegaudana Hittalu Sandu; Malegere Gatte tree; Havalige tree; Shagade tree; Kare Shagade tree; Basari tree; and a Haigal tree.

South.—By the Hittal of Uduve at the end; and high ground called Kurade Dinne in the middle.

2*nd Piece.*—*East.*—By a Gerri tree; Haigal tree; Hessvana tree; and a hedge adjoining Dyavegauda's Hittal.

West.—By a building site called "Halemanedalada Vattu;" and a high ground called Uduve Akhair Dinne.

North.—By paddy fields called Kareva lersaladegadde.

South.—By a path leading into the Uduve.

SEASON REPORTS FOR THE MONTH OF NOVEMBER 1875.

Mysore District.

Rain.—Only a slight shower of rain fell during the month and was very partial. 18 cents were registered in Mysore.

Crops.—Owing to the absence of the customary rain at the most critical period, the ragi crop has failed generally throughout the country. In the most favored localities not half the usual yield will be obtained, while in many localities, particularly in the Mandya and Gundlupet Taluks, the yield will be merely nominal.

The gram crop, which the ryots sowed on the failure of the jola crop, is withering away from want of rain.

The return from the rice crop below the river channels will be below the average, as it had no showers of rain to bring it on. Many parts of the country have not received a supply of water for irrigation as tanks have not been filled. Bengal-gram and coriander seeds were sown in the Mysore, Yedatore and Heggaddevankote Taluks.

Health.—Cholera is on the decrease. It has left the town of Mysore entirely, but still prevails to some extent in the Taluks. 96 fatal cases were reported during the month. The country is comparatively free from fever.

Cattle.—Murrain still prevails among cattle in the Ashtagram, Periyapatna and Nanjangúd Taluks. The losses owing to this and other causes amounted to 1,131 head, inclusive of 113 carried off by wild beasts.

Prices.—The fluctuations in the price of food grains have been considerable. They shew a marked tendency to rise to famine prices. 1st sort rice was sold in Mysore at the end of the month at 10, 2nd sort at 10½, ragi at 20, horse-gram at 23, green gram at 16, Bengal-gram at 10 and dál at 10 seers for the rupee.

W. HILL,
Dy. Commr.

Shimoga District.

Rain.—The total quantity of rain gauged during the month was 3 inches 81¾ cents, *viz*:—

	Inches.	Cents.		Inches.	Cents.
Shimoga	0	15	Nagar	1	58¾
Chaunagiri	0	28	Kavaledurga	1	50
Ságar	0	30			
			Total....	3	81¾

Crops.—Paddy and ragi were reported to have been harvested in all the Maidan Taluks, and supari, cardamoms and coffee in the Malnad Taluks. Sugar-cane and other crops, under growth, were reported to be in pretty good condition.

Health—On the whole not very good. The total number of deaths registered during the month, including those from cholera which made its appearance in some of the taluks, amounted to 754, being 183 in excess of the number of the previous month.

The total number of births reported was 474, being less by 62 than of the month previous.

Cattle.—Total loss of cattle during the month under report, from murrain, "foot and mouth" and from other diseases were 1,021, and 63 by wild-beasts, against 2,277 in the month previous.

Prices—Rising, owing to the want of briskness in the trade from the breaking out of cholera in the town and other localities, which deterred traders and the people from villages around and other places from bringing their commodities to market.

S. B. KRISHNASWAMAIENGAR,
For Offg. Dy. Commr.

Hassan District.

Weather.—Bright clear days, with occasional foggy mornings. Slight rain fell on the 9th in all the Taluks of the District except Nagamangala, Harnhalli and Narsipur, and the quantity gauged at head-quarters being 26 cents.

Water-supply.—The supply of water in 303 large and 2,805 small tanks varies from one to four months, while 37 large and 1,715 small tanks were dry.

Lands.—Lands assessed at Rs. 754—1—4 were newly taken up for cultivation during the month under report, while none were resigned.

Crops.—Bengal-gram was sown in the Taluks of Hassan, Harnhalli, Channaraypatna, Belur and Nagamangala, and coriander seed in that of Narsipur. Paddy was cut in the Taluks of Manjarabad, Hassan, Arkalgúd and Attikuppa, and ragi in the former taluk. Coffee and cardamoms were being picked. The other standing crops in all the Taluks are only in average condition and suffering from failure of the usual rains. Sugar-cane is doing well in the Hassan Taluk.

Market.—The prices of all articles of consumption have steadily increased and the market poorly supplied.

Health.—It is gratifying to note that, though cholera prevailed in 5 taluks out of the 9 taluks of the District, the number of fatal cases was 47 against 284 in the previous month. Colds and fever prevailed in the Belúr, Manjarabad and Arkalgúd Taluks. There were 398 deaths from all causes during the month against 731 in the previous month, as per following detail, *viz*:—

Cholera	47	Snake bite	1
Small-pox	1	Accidents	5
Fever	221	Other causes.. ..	84
Bowel complaint	39		
		Total....	398

Cattle.—Murrain, foot and mouth diseases were prevalent among cattle in the District. The casualty during the month under report among cattle being 2,708, of which 15 were killed by wild beasts, against 2,894 in October last.

A. SRINIVASAIENGAR,
For Offg. Dy. Commr.

Kadur District.

The fall of rain throughout the District, except in the Chikmagalur Taluk, has been scanty. The scarcity of both water and fodder is on the increase.

The following table furnishes readings of the thermometer and rain-fall recorded at the Chikmagalur Observatory for the past and present month as contrasted with the month of November 1874.

October 1875-	*Thermometer* at 9—30 A. M.	76 14	At 3—30 P. M.	82·	*Rain*	2 inches	15	cents.
November 1875	„ „	72.5	„	76 9	„	0	0	„
November 1874	„ „	72·13	„	80 6	„	1	54	„

Crops.—Bengal-gram in the Taluks of Banavar, Tarikere and Chikmagalur; coriander and menthya in the two former and wheat in the latter have been sown. Standing-crops in all the taluks are reported to be withering on account of the failure of seasonable rain and the yield is anticipated to fall short of the out-turn of past years. Ragi, sáve, chillies and navane in the Banavar Taluk, and jola and ragi in the Tarikere taluk are reported to have been harvested.

Health.—The health of the District is indifferent. Cholera prevails in the Taluks of Banavar and Chikmagalur, and fever and ague in the Taluks of Tarikere, Koppa and Lakvalli.

The total number of deaths reported from all causes is 302 in this, against 286 last month, and 290 in November 1874.

Cattle.—The condition of live stock is on the whole bad. Murrain of the "Dod-roga" and "Kalbayi jvara" types prevails in all the Taluks except Koppa. The mortality from wild beasts is reported to have been heavy in the Taluks of Lakvalli and Koppa.

The total mortality from all causes amounts to 1,444 in this, against 1,490 last month and 782 in November 1874.

P. KRISHNA RAO,
Dy. Commr.
